## EXPERIENCE

April 2021 – Present

### Software Developer IV, Jenzabar Inc

Extended and maintained an enterprise web solution used in higher education. Collaborated with designers, developers, quality assurance, and product managers to help shape the future of the product area. Occasionally helped troubleshoot issues reported directly from clients. Lead the implementation of a standardized back-end caching system that is now used across the product.

Spearheaded various research initiatives to integrate various third-party technologies into the product including SendGrid/Twilio, DocuSign, Google Vertex AI, Redis, and Telerik Reporting.

---

January 2020 – November 2020

### WordPress Developer/Designer, MacWood Inc.

Designed, developed, and maintained a WordPress website featuring an online Shopify store. Additional duties included maintaining social media accounts and general computer related tasks and maintenance.

---

Summer 2020

### Assistant Instructor, Black Rocket Productions

Assisted in instructing elementary aged children in week-long computer science summer courses. Quickly adapted to emerging web-based classroom styles due to COVID-19.

Courses instructed include: Python Programmers, JavaScript Developer Jam, Code Breakers, and Minecraft Redstone.

---

September 2019 – December 2019

### Tutor, Bridgewater College

Assisted students in test/quiz preparation by reinforcing Java programming fundamentals taught in the class. Tutored CIS-105: Intro to Programming.

---

Summer 2019

### Co-Author, Using D3.js, [using-d3js.com](https://using-d3js.com)

Co-authored a programming resource as a summer project. Developed technical writing skills and a deeper understanding in data visualization, JavaScript, and the d3.js library. The online resource is continuously accessed hundreds of times per week by students and developers.

---

June 2016 – January 2018

### Website Manager, Howard A. Spangler Co.

Designed, developed and maintained company website and social media accounts using HTML, JavaScript, and CSS.

## EDUCATION

Class of 2021

### Bachelor of Science, Computer Science, Bridgewater College

Major: Computer Science | Minor: Computer Information Systems | Concentration: Web Design and Development

## SKILLS

- HTML, CSS, SVG, ES6 JS
  - JS Frameworks: Node.js, D3.js, Babylon.js, XTag
  - AWS EC2, S3, Route 53, Google Cloud
  - Java, C# (Asp.Net, NHibernate), MSSQL/MySQL, Python, have seen PHP before (made me sad)
  - Integrated APIs of Redis, SendGrid/Twilio, DocuSign, Google Vertex AI, and Telerik Reporting
- Current Tech Stack:
- C# (Asp.Net, MVC, NHibernate), MSSQL, ES6 JS
